

Trophy Run

Lynn Anderson is first in Trophy Run and also first to sprout wings on his bike. At Welch, it was discovered to be a fold-up boat! And happy cycling to you on you're Beamer!

Julie is still our most prevalent passenger. She must be turning into a biker!

What's Doin'

Jimmy of the Joint had a visit last Monday from some Hell's Outcasts. Seems they don't like our patches... I think they are 'kinda sharp myself. It's outrageous, I agree; but if you live in St. Paul, take it easy on showing off your patch when riding alone. To get the scoop, call Mike at 373-1960 (days) or stop by the joint and talk to Jimmy or Bob.

Ever been to a Motorcycle Festival? August 7-13 Sturgis, South Dakota, will turn the town over to cyclists from all over the U.S. and Canada. In the Black Hills, 600 miles from the Cities (1 1/2 day ride) they take two Gypsy tours through the area. Imagine 1000 or more bikes winding their way up, down and thru the canyons and hills. Far out! They also have Motocross, Hill Climbs, etc. and a free feed... when you're thirsty, they have "The Joint"! For real! Lot of action! Scores of people to meet! Motorcycles you wouldn't believe! Make the scene! You can tote or ride your bike. Camp in a canyon or in the huge city park. Moonshine Gulch is great for Frosty beer and Deadwood is quaint and wild Western fun. If you want to ride out in company, Jim Carroll and Ray Fagre are leaving August 9th. Call 454-5839 for more info.

Saturdays are not just for campers! No Saturday ride is over 90 minutes from the city and are for campers and non-campers alike. Let's all make it on Saturdays, and remember Ma Kelly can whip out a good breakfast to prepare you for an afternoon of cycling in the sun. Don't forget Wednesday rib nite either!

We have scheduled Wednesdays thru August 30 for you swimmers. Every Wed. we are going to a lake with a swimming beach so let's see some splashes!

Wonder where Ross is? He left the country—took the wife and baby Chop to Canada for a short vacation.

BIKES FOR SALE

125 Suzuki—750 mi. \$385 Call Lonnie Francis at 545-9364

305 Indefatigueable—19,000 mi. Call Lynn Anderson

CHANGES OF ADDRESS

Jim Carroll's number is now 888-3414.

Debbie Koch has moved to 666 Lincoln Ave., St. Paul. 227-4237.

Spinning Wheels

We've had a good turnout; very impressive, 'till last Saturday at Apple River Dam... what happened? (Should have been 30) We had to drag a few out of Ben's in Somerset; was it the air conditioning?!

Five bikes were on the July 4th weekend ride. "Kawasaki Joe" did a good job of catching-up, leaving the "Joint" two hours after the others. Camped at Hayward, despite heavy fog and 30 degrees, fun was had, with Debbie Koch cooking up some fine chow. (Debbie did not write this!) Speaking of food, hot dogs have given way to hamburgers and sloppy joes, there's talk of a good old fashioned stew. More ideas, anyone?

As far as good rides go, there is one thing that can't be changed, and that's the repeating of spots to ride to. With our limit of mileage, there aren't too many places that industry hasn't gotten to. On Wednesdays, we have to stay close to town, and that means lots of repeats. And if we don't stop building fires in city parks and driving on the grass, we'll be repeating even more next year. Please keep it in mind when that hill looks nice to climb.

July 19 at Snail Lake, John Musil and Ross Kiihn got into a deep game of chess (a draw), Frisbee was the game for some and a few lucky guys got a back rub. The ladies facility was somewhat lopsided causing some confusion... female lib! And it makes it even harder when the guys try to push it over... don't you think so Squeek? And speaking of John Musil; what do you think you've got, a Maico? Leave those rivers alone!

Fun can be had in the rain

On July 8th, the hardy ones hit Afton for a Lerkburger and found a secluded swimming hole. Despite the rain, a fire got started, food eaten and the dipping was pretty skinny. Hey Muggger! Tents are for getting into not falling onto.
