
Marine on the St. Croix has some interesting things here besides the Brookside Bar & Grill

There is two Monuments next to the parking lot:
The first one is about the history of the Flower and Grist Mill, and the other Monument has a Bell on the top of it with the story about the First Commerical Sawmill in Minnesota.

Accross from the Bell Monument is the General Store which still has the original wooden floors and on the north inside wall has pictures made from puzzles.

Just behind the General Store is the Ice Cream Shop (by the way they are delicious) just left of the Ice Cream Shop there is a path that goes to the St. Crioix shoreline.

Take some time and go to the south side of the falls and walk down the path and read about some of the historical thngs about the Marine on the St, Croix. I know you all will enjoy these sites.
